

**Percentage Change in Total Population in Texas Metropolitan Areas,  
July 1, 2000, to July 1, 2006**

(Percentage)

Note: The April 1, 2000 estimates base reflects changes to the Census 2000 population resulting from legal boundary updates as of January of the estimates year, other geographic program changes, and the Count Question Resolution program. All geographic boundaries for the 1, 2006, population estimates series are defined as of January 1, 2006. The Office of Management and Budget's statistical area definitions are those issued by that agency in December 2005.

The metropolitan statistical area population estimates are based upon county estimates. The county estimates methodology is available at: [http://www.census.gov/popest/topics/methodology/2006\\_st\\_co\\_meth.html](http://www.census.gov/popest/topics/methodology/2006_st_co_meth.html).
